

Baruch College Campus High School
School Leadership Team Meeting
April 23, 2020

Miscellaneous Notes:

- For CEP: input new goals, action steps input in the fall → using the same CEP from this year

Diversity in Enrollment:

What does COVID-19 mean for admissions for next year?

- We did meet our 34% diversity target, but we not the special education targets → Had to open the rubrics
- We have way too many kids enrolled at the moment → But there are waitlists
- When we didn't have enough ranked students, district 2 went over everything else meaning that after there were no more qualified applicants according to our rubric, random students began to be selected
- We still have that gap that pushes us between our GenED and Special Education Students

How do we want to welcome our new freshmen? Other things for this year?

- How can we get kids to interact ?
- Four different short times for orientation instead
- Different methods of interaction (videos, 1-1 with advisors, resources, kids making their own decisions

Remote learning is going well generally
