Mid-year CEP data check

1. Large gap (13.3 point difference) between students with disabilities and gen ed students in Algebra baseline.
 - a. Strategy to employ:
 - i. Math tutoring (how do we measure impact?)
 - ii. Teacher professional development
 - iii. NEW: iXL
2. Positive attention & support (know students well):
 - a. Jan 27 teachers will review data & try strategies
3. Multiple means of expression (shared & inclusive curriculum)
 - a. Release time for AP lang teachers to plan & align to new curriculum
 - b. Department teams to index types of assessments (projects, tests, etc)
4. Equity
 - a. Was focusing here on AP Lang - no noticeable gaps
 - b. Considering measuring more what we learn from Town Halls
 - c. How to develop and sustain an 'upstander' culture
 - d. [Bias incident review](#)
 - e. [Equity pledge](#) (in draft)

January 16, 2019, SLT Minutes

- Supervised use of new laptops with access to printer
- Potential grants for Chromebooks, etc...
- Who needs computers/wifi? How can we use SLT funds
 - Send survey to assess need (9th grade first)

Advisory Communication Initiative (Piloted by RC)

- Went well, kids enjoyed it and there seems to be potential
- Basic Google organization skills are overlooked, now there are requirements to help organize things digitally
- Good discussion, not needed to see if there are new opportunities, community things, etc....
 - Perhaps once a month review instead of weekly review in order to make things more manageable
- Ex. King brought up how for the holiday box drive, there was much less participation
 - There is so much going on, how can we bring it all into one place
 - Don't want to lose focus of important ideas
 - Original idea was to mitigate stress
- Good professional development!

CEP Data Check

- Math tutoring seems to going super well

- Potentially expand tutoring to other grades (peer tutor)
- RC has helped work with Ms. Benowitz to refine the Algebra curriculum
- IXL was used last year, paid for more of it this year (going to be for all algebra students)
- Increasing student engagement (getting better but still work to do)
 - Teachers thought increasing engagement was linked to academic changes, though students have made it more apparent that there needs to be more emotional support, reminders, etc... —> similar to advisory initiatives
- If students are in AP classes, how can students demonstrate their understanding
- How can AP teachers and students be supported
- Trying to increase equity by increasing ability of students to voice their concerns
 - Town Halls
 - Draft of equity pledge
 - Punishing vs restorative justice
- SLT has \$2,130 left
